Zappy SERVER

Generated by Doxygen 1.9.6

Chapter 1

Class Index

1.1 Class List

Here are the classes, structs, unions and interfaces with brief descriptions:

Chapter 2

File Index

2.1 File List

Here is a list of all documented files with brief descriptions:

Chapter 3

Class Documentation

3.1 s_app Struct Reference

Collaboration diagram for s_app:

3.2 s_client Struct Reference

Public Attributes

- size_t **fd**

The documentation for this struct was generated from the following file:

- /home/tjerome-rocher/Desktop/Tek2/Zappy/server/include/server/client.h

3.3 s_egg Struct Reference

Collaboration diagram for s_egg:

Public Attributes

- vector2i_t * **pos**
- size_t **id**
- bool **is_laid**
- size_t **id_player_laid**

The documentation for this struct was generated from the following file:

- /home/tjerome-rocher/Desktop/Tek2/Zappy/server/include/types.h

3.4 s_game Struct Reference

Collaboration diagram for s_game:

Public Attributes

- size_t **height**
- size_t **width**
- tile_t ** **map**
- struct timeval **start**
- struct timeval **start_food**
- int **freq**

The documentation for this struct was generated from the following file:

- /home/tjerome-rocher/Desktop/Tek2/Zappy/server/include/game/game.h

3.5 s_gui Struct Reference

Collaboration diagram for s_gui:

Public Attributes

- size_t **fd**
- list_t * **list_messages**

The documentation for this struct was generated from the following file:

- /home/tjerome-rocher/Desktop/Tek2/Zappy/server/include/gui/gui.h

3.6 s_ia Struct Reference

Collaboration diagram for s_ia:

Public Attributes

- size_t **fd**
- list_t * **list_command**
- list_t * **list_messages**
- vector2i_t * **position**
- orientation_t **direction**
- inventory_t * **inventory**
- incantation_info_t * **incantation**
- size_t **level**
- time_info_t * **time**
- char * **team_name**
- bool **dead**

The documentation for this struct was generated from the following file:

- /home/tjerome-rocher/Desktop/Tek2/Zappy/server/include/ai/ai.h

3.7 s_incantation_info Struct Reference

Public Attributes

- bool **status_incantation**
- size_t **target_level**

The documentation for this struct was generated from the following file:

- /home/tjerome-rocher/Desktop/Tek2/Zappy/server/include/ai/ai.h

3.8 s_inventory Struct Reference

Public Attributes

- size_t **food**
- size_t **linemate**
- size_t **deraumere**
- size_t **sibur**
- size_t **mendiane**
- size_t **phiras**
- size_t **thystame**

The documentation for this struct was generated from the following file:

- /home/tjerome-rocher/Desktop/Tek2/Zappy/server/include/ai/ai.h

3.9 s_list Struct Reference

Collaboration diagram for s_list:

Public Attributes

- list_node_t * **first**
- list_node_t * **last**
- size_t **len**

The documentation for this struct was generated from the following file:

- /home/tjerome-rocher/Desktop/Tek2/Zappy/server/include/list/type.h

3.10 s_list_node Struct Reference

Collaboration diagram for s_list_node:

Public Attributes

- node_data_t **data**
- struct s_list_node * **next**
- struct s_list_node * **prev**

The documentation for this struct was generated from the following file:

- /home/tjerome-rocher/Desktop/Tek2/Zappy/server/include/list/type.h

3.11 s_node_data Union Reference

Collaboration diagram for s_node_data:

Public Attributes

- ia_t * **ai**
- gui_t * **gui**
- client_t * **client**
- team_t * **team**
- char * **message**
- char * **command**
- egg_t * **egg**

The documentation for this union was generated from the following file:

- /home/tjerome-rocher/Desktop/Tek2/Zappy/server/include/list/type.h

3.12 s_parsing Struct Reference

Struct for parsing the arguments.

```
#include <types.h>
```

Public Attributes

- int **port**
- int **width**
- int **height**
- int **clientsNb**
- int **freq**
- char ** **names**

3.12.1 Detailed Description

Struct for parsing the arguments.

The documentation for this struct was generated from the following file:

- /home/tjerome-rocher/Desktop/Tek2/Zappy/server/include/types.h

3.13 s_server Struct Reference

Public Attributes

- fd_set **read_fds**
- fd_set **write_fds**
- int **fd**
- socklen_t **addrlen**
- struct sockaddr_in **addr**

The documentation for this struct was generated from the following file:

- /home/tjerome-rocher/Desktop/Tek2/Zappy/server/include/server/server.h

3.14 s_team Struct Reference

Collaboration diagram for s_team:

Public Attributes

- list_t * **list_ai**
- list_t * **eggs_list**
- char * **name**
- size_t **max_place**

The documentation for this struct was generated from the following file:

- /home/tjerome-rocher/Desktop/Tek2/Zappy/server/include/ai/team.h

3.15 s_time_info Struct Reference

Public Attributes

- bool **stuck**
- struct timeval **start_stuck**
- double **total_stuck**
- struct timeval **start_life**
- double **total_life**

The documentation for this struct was generated from the following file:

- /home/tjerome-rocher/Desktop/Tek2/Zappy/server/include/ai/ai.h

3.16 s_vector2i Struct Reference

Public Attributes

- int **x**
- int **y**

The documentation for this struct was generated from the following file:

- /home/tjerome-rocher/Desktop/Tek2/Zappy/server/include/types.h

3.17 tile_s Struct Reference

Struct for a map's tile.

`#include <map.h>`

Public Attributes

- size_t **food**
- size_t **linemate**
- size_t **deraumere**
- size_t **sibur**
- size_t **mendiane**
- size_t **phiras**
- size_t **thystame**

3.17.1 Detailed Description

Struct for a map's tile.

The documentation for this struct was generated from the following file:

- /home/tjerome-rocher/Desktop/Tek2/Zappy/server/include/map/map.h

Chapter 4

File Documentation

4.1 ai.h
